

AgMap

Find any Farm in Western Canada

[AgMap™ Property of SkyBase Geomatic Solutions Inc. www.skybase.ca 780-814-2130](http://www.skybase.ca)

This product:

- Requires a good road dataset such as is found in the **Garmin Nuvi & StreetPilots**
- Is only available for Garmin GPS units and on **SD / micro SD** memory cards
- Instantly have every ¼ section location from E. Manitoba Border to BC Peace Block (Surveyed Townships)

For best routing in Garmin Nuvi & Streetpilots:

- From the opening screen click, in this order: "Tools/Settings/Navigation/Avoidances/ 'Down Arrow'
- **UnCheck** the Unpaved Roads box – now it will take the unpaved township roads appropriately

How to find a DLS Section using AgMap:

Step 1

- From the opening screen click "**Where to?**"
- Click "**Points of Interest**"
- If you think the destination is more than 1000 kilometres away then go to step 2. If not, skip to step 3.

Step 2

- If the destination is more than 1000 kilometres away then you must specify a city that the Section is close to. For that click on "**Near...**" at the bottom of the screen
- Choose "**A Different City**"
- Type the city name and press the "**Done**" button.

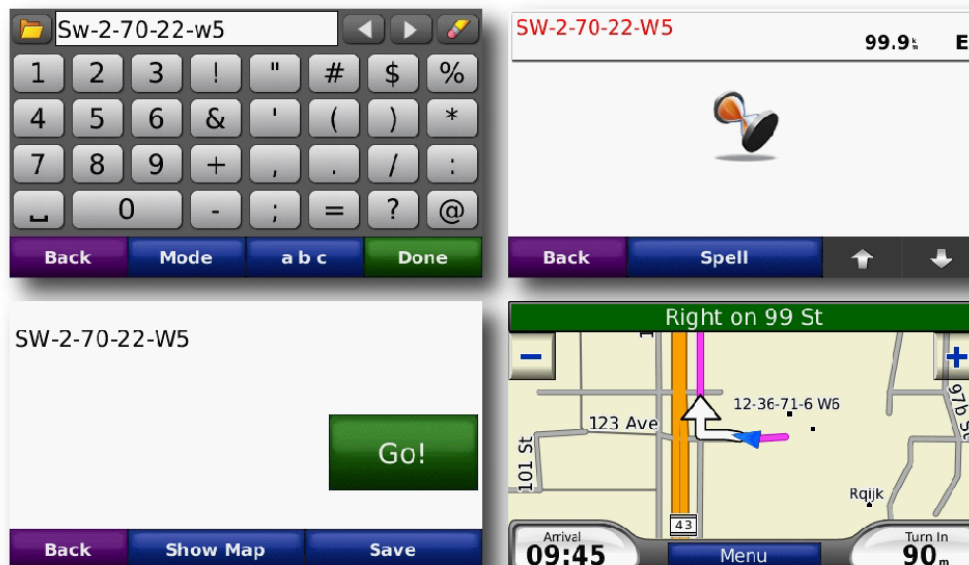

Step 3

- Click "**Spell Name**"
- Type your quarter section name using the following format:

NE-36-75-5-W6

Qtr - Sec - Twp - Rge - Mer

(Speed freaks can leave out the dashes)

just type & GO !
